

THREE BIG RAILROAD MEN WHO ROSE FROM THE RANKS;  
YOUNG LAWYER, STENOGRAPHER AND CLERK NOW AT TOP

Edward W. Beatty

"Very good, Eddie!" was the message of congratulation Mayor Church of Toronto sent to Edward W. Beatty, the new president of the Canadian Pacific Railway Company, and the brainy young man of 41, who is now in control of 18,500 miles of track, 100,000 miles of telegraph wires, 400,000 steamship tonnage, \$25,000,000 worth of hotels and millions of acres of land, laughed heartily and voted this message one of the best he had received. President Beatty has plenty of dignity and earnestness, but to his old friends he is still "Eddie" or "Ed."

He started work for the Company as an assistant in the law department seventeen years ago, and has steadily advanced until the presidency is now his. Lord Shaughnessy, his predecessor, describes him as "one who has shown notable administrative ability, and who enjoys to a marked degree the confidence not only of the political and business leaders of Canada, but also of the employees of the railway itself."

A. D. MacTier, new vice-president in charge of Eastern lines, entered the railway's service as a stenographer in the baggage department in 1887. D. C. Coleman, now vice-president in charge of Western lines, went to work in the assistant engineer's office at Fort William as a clerk in 1889. These men, tried and true, have risen from the ranks through sheer ability and energy, and are well qualified to carry out the vigorous program which Lord Shaughnessy recently indicated was to be a feature of the reconstruction period after the war.

Watson,  
Parker  
& Reese  
Co.Save Leather  
For The Soldiers

SAVE leather for the army. The demand is so great that leather shoes cost \$4.50 to \$6.00 a pair. Men's Work Shoes ..... \$3 to \$6.50  
Women's High Shoes ..... \$3 to \$12  
Babies', Children's Shoes ..... 75c to 5.50

Watson, Parker &amp; Reese Company

BAVARIA THREATENS TO QUIT  
UNLESS ARMISTICE IS SIGNED

Paris, Nov. 8.—There is reason to believe, according to a Berne dispatch to Temps, that the premier of Bavaria has sent an urgent note to the German government stating that if an armistice is not concluded without delay, he will be obliged to officially order Bavarian troops to return from the front. This action would be taken, it is added, owing to the fact that Bavaria is menaced on the southern frontier and the internal situation in Bavaria is unsatisfactory.

RIDICULES THIRD SEX  
AS OUTCOME OF WAR

(N. E. A. Special.)  
London, Nov. 9.—G. H. Roberts, the British minister of labor, thinks all talk of a "third sex" and a "sex war" growing out of women's part in the war is pure rot. He said so in a speech the other night, contending that "women will always be swayed by love and home." The war has brought about a million and a half additional women into employment in Britain. About a third of the British munition workers are women.

FLOWERS BLOOM ON  
GORY BATTLEFIELDS

(N. E. A. Special.)  
Paris, Nov. 9.—Letters from soldiers at the front refer often to the prolific growth of flowers on battlefields. Scientists lay this to the nitrates in the high covered shells, the explosions of the shells completely change the nature of the surrounding soil, pulverize it and thereby enable plant life to thrive in the new soil. Condemned explosives will have a good market among the farmers after the war for their fertilizing values.

NEW ORLEANS STILL  
UNDER EPIDEMIC BANS

New Orleans, Nov. 8.—Announcement was made by health authorities today that moving picture houses, theatres and schools, closed several weeks ago because of the influenza epidemic, will be allowed to re-open November 16.

STORE TO BE  
REMODELLED  
OVER NIGHT

The entire lower floor of Watson, Parker and Reese will be changed over night as it were, and Monday morning will open with entirely new fixtures, which will have been installed for the convenience of the customers.

Hereafter, in line with modern stores in larger cities, the goods will be displayed in full view of the purchaser, which means better and more efficient service, time saved and an opportunity to choose carefully.

This systematized method will also protect the merchandise, save the goods from handling and will avoid dust collection, keeping the goods fresh and ready for immediate use.

The women of Pensacola and West Florida are cordially invited to visit the store Monday morning, where they will find that an entire transformation of the interior has taken place, experts having been sent direct from New York to make the changes and improvements.

It is stated that the change will demonstrate the degree to which modern efficiency has been developed. Ordinarily, the transformation would require several days, but as a result of careful advance planning it will be accomplished without interrupting the business of the store.

CONDITIONS ARE  
BAD IN AUSTRIA

Zurich, Nov. 9.—Deplorable conditions in Austria are described by a traveler of prominence who has arrived here from Vienna. Along the road the train was invaded by crowds. Places in the coaches occupied by Count Leopold von Berchtold, former foreign minister of Austria-Hungary, and the Prince of Schoenburg were taken and the noblemen were ejected. Bands of disorderly soldiers installed themselves upon the roofs of the cars.

Stores in villages along the way have been pillaged and foodstuffs have been carried off. The traveler confirms reports that anarchy reigns in the interior of Austria-Hungary. Farms are being pillaged and shops sacked by throngs of deserting soldiers. The bourgeoisie, feeding the Bolshevik movement, desire allied intervention, he says.

ENGLISH PICK FOOD  
ON COLOR SCHEME

London, Nov. 8.—Meat coupons are green and blue and sugar yellow, while one spare page in the food coupon book is crushed strawberry and another green, so a British family dinner is a symphony of color.

BUSINESS BOOM IS  
TO FOLLOW WAR END

New York, Nov. 9.—End of the war will bring tremendous opportunities for expansion and further prosperity to American business.

Foreign markets the world over will be waiting for goods which only America can supply.

Such is the belief of Richard Spillane, editor of Commerce and Finance, who is one of the country's greatest authorities on general business conditions here and abroad.

Spillane is so strong an expert that his views carry great weight with the largest manufacturers and most powerful financiers of America.

"When the time arrives for us to help in rehabilitating the devastated lands of Europe," Spillane declares, "America's opportunity will be here."

"The shelves of the world are bare. Belgium and Northern France are stripped clean. Everything of bronze, copper, iron, steel, tin, has gone."

"The Germans have taken door knobs and letter box fixtures. Every metal utensil has been taken. Hinges off the doors are gone."

"There is enough hardware business in Belgium to keep the factories of New England busy indefinitely. The raw and finished materials so urgently needed in nearly every section of the globe, America possesses today in greater quantity than any other country."

"Our new merchant marine will be turned over to private interests to operate. There will be no government regulation of rates. Government regulation of shipping rates is as inequitable and uneconomic as price fixing for foods and fuel, or anything else."

"We must let the law of supply and demand take care of ocean rates. Unrestricted competition will be the rule. And America shall win."

"Our manufacturing industries are in better condition than ever to undertake the conquest of foreign markets."

"We have the raw material, the industries and the labor power ready. An era of unexampled prosperity should follow the war for us."

"For the first time in history we have an accurate inventory of our manufacturing resources in Washington. Our prosperity after the war is bound up with foreign commerce."

## RETURNED FROM WEST FLORIDA

U. S. District Attorney John L. Neely returned yesterday from West Florida points which he has been visiting on government business.

A CHILD DOESN'T  
LAUGH AND PLAY  
IF CONSTIPATED

Look, Mother! Is Tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the last treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups, plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—Adv.
